Council Meetings

7:00 P.M. 1st and 3rd

Mondays of each
month.

Planning & Zoning

Meeting 7:00 P.M.

3rd Wednesday of
each month.

Winter Weather Is Approaching

With the great fall-like weather that we are experiencing, it is difficult to think about the approaching winter season. Because of the severe winter that we experienced last season, salt is in short supply. We continue to contact salt suppliers to obtain road-salt but, have not had yet acquired any salt.

The Covington Street Department will continue to work hard to keep your streets clear and safe. However due to the shortage of salt, we will be forced to limit the use of salt to main routes and intersections.

As a result of the salt shortage we will have a higher potential for ice and snow covered streets. Please plan to reduce your speed and keep a safe distance from other vehicles when traveling on residential streets this winter.

Trash Program Progress

Village personnel continue to make our trash services as efficient as possible. One of the ways we are becoming more efficient is through the use of the automated trash truck. This trash truck must be able to pick-up the trash toter, dump it and replace the toter to its prior location without additional assistance. To accomplish this it is necessary in some cases to relocate the trash toter to allow for the truck to efficiently pick it up.

We would like to thank the many residents that have assisted us with the process of relocating these toters. With your support, we continue to make our trash service as cost effective as possible.

If you have any questions or concerns about the new location of your trash toter, please call the Government Center at 937-473-3420.

Sidewalk Maintenance Program

The 2014 sidewalk program has been completed. Sidewalks to be replaced under the 2015 sidewalk maintenance program have been identified and notification letters have been sent out to effected property owners. We would like to thank Village residents for the support that you have given us while completing this year's sidewalk maintenance project and look forward to another successful year in 2015.
