Winter Weather Is Approaching

With the great fall-like weather that we are experiencing, it is difficult to think about the approaching winter season.

The Covington Street Department will continue to work hard to keep your streets clear and safe. Due to budget constraints and the concern for the effects of salt on our environment, the Street Department will continue to limit the use of salt to main routes and intersections.

As a result of these conservation efforts we will have a higher potential for ice and snow covered streets. Please plan to reduce your speed and keep a safe distance from other vehicles when traveling on residential streets this winter.

Village Wide Fire Hydrant Flushing is scheduled to be completed the week of September 25, 2017
